

CLEAN STORMWATER RUNOFF

ACTIVE OR PASSIVE TREATMENT OPTIONS

Advantages:

- Enables flocculation of fine soil particles causing the soil particles to settle out which in turn reduces the turbidity in your water flow.
 - No machinery needed.
 - All products have negative charges and are non-toxic. (Linear Anionic Polyacrylamide)
- Products are made with 97.3% Active Ingredients, NO FILLERS!
 - EPA, many state DOTs & DWQs Approved.

Applications:

- Construction Site Storm Water Runoff
 - Highway and Road Runoff Ditches
 - Mine Tailings
 - Waste Pile Ditches

ALL PRODUCTS MADE IN U.S.A.
