

**Non-Toxic Linear Anionic Polyacrylamide (PAM)
Certified Pursuant to US EPA 821-R-02-012**

Soil Specific Sediment Control

Demucking – Dry Applications - Hydroseeding

Advantages:

- **Superior quality manufactured to our specifications.**
- **Recognized as a best management practice (BMP) by the USEPA.**
- **Reduces dust and erosion by 95%.**
- **Improves infiltration and enhances germination.**
- **Enhances other erosion control devices.**
- **Reduces cost of installation, maintenance and irrigation.**
- **Safe for plants and people and is biodegradable.**
- **Made in the U.S.A.**
