

# MARLEE FLOAT

NEXT GENERATION REUSABLE SKIMMER

**Durable. Tested. Trusted.**

## QUALITY MATERIAL

Durable Construction to hold up in any condition (HDPE pipe, polyethylene float and stainless fittings).

## UV RESISTANT DESIGN

Manufactured to prevent degradation, cracking and brittleness experienced by PVC products.

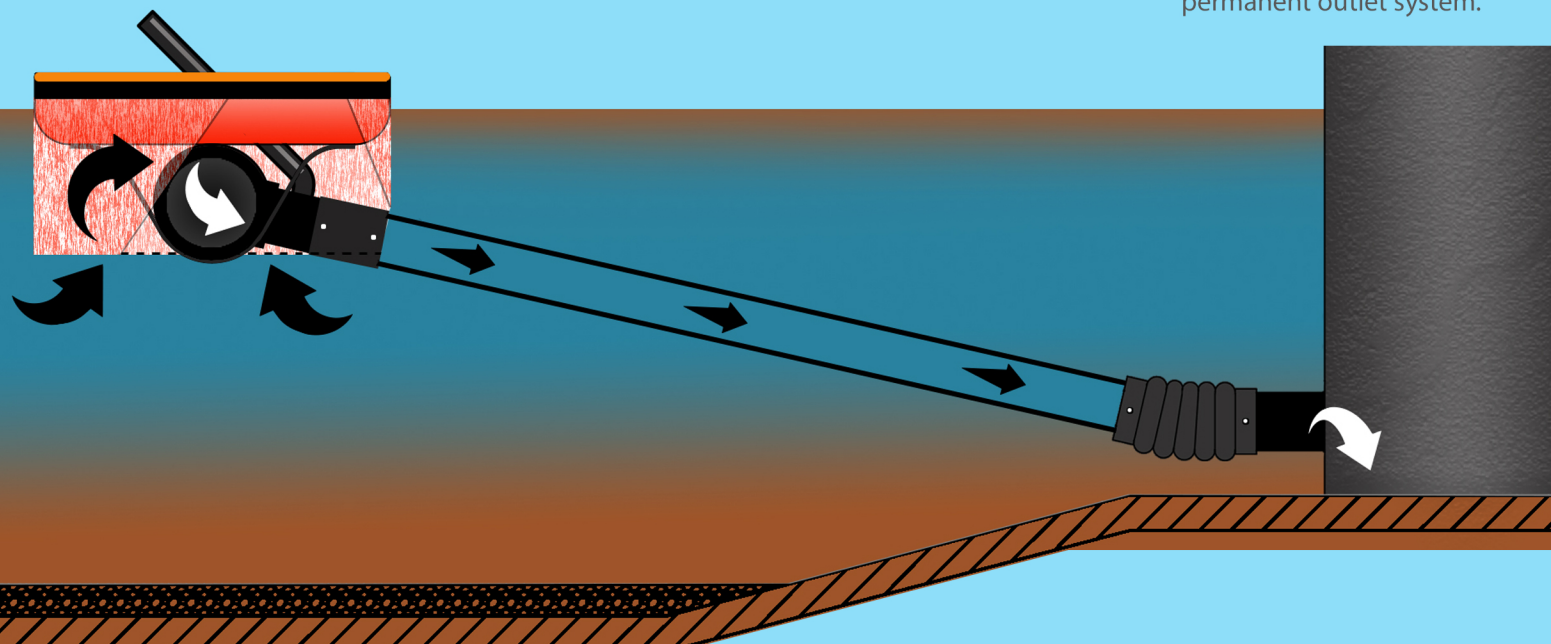

## 3RD-PARTY APPROVED

We've partnered with independent third-party organizations to verify flow rates and draw down times.

## 20-YEAR LIFE SPAN

Because of the long life span of the skimmer, it can be reused on future projects or used as part of the permanent outlet system.

# RYMAR WATER QUALITY FILTERS

## 90% TSS

Removal Efficiency

## BETTER TREATMENT

Treat 100% of the rain events managed by the skimmer

## SMALLER PONDS

Using Filtration instead of unreliable settling results in smaller pond volume being needed to meet requirements

## VERIFIED RESULTS

Third Party tested to provide over 90% TSS Removal per ASTM C1746

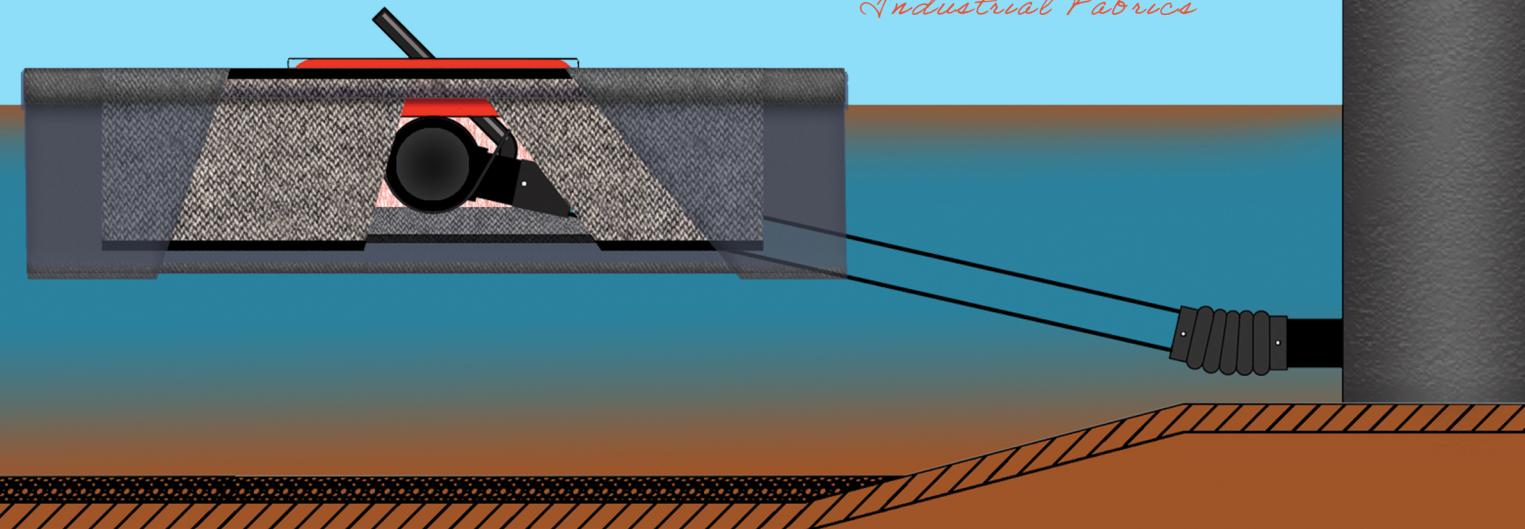

## EASE OF MAINTENANCE

Filter has a 2-year life span and is simple to replace when needed. Skimmer has 20+ year life span.

*The Marlee Skimmer is easy to install and is much higher quality than traditional skimmers.*
