

PETROTAC

PETROTAC® is a self-adhesive pavement membrane interlayer designed to protect pavements from moisture damage and reduce reflective crack development by providing a stress absorbing interlayer.

PRIMARY FUNCTIONS

- Moisture barrier
- Stress relief
- Adhesive bonding

APPLICATIONS

- Local pavement distress
- Moderate joints and cracks
- Highways and parking areas
- Airport pavements
- Bridge decks

FEATURED BENEFITS

- Easy peel-and-stick installation
- Seals crack and joint to minimize water infiltration
- Reduces reflective cracking
- Provides cost effective bridge deck waterproofing
